FIG. 3b

Figure 1 is a graph showing the amplitude of the square window and the Welch window. The x-axis is labeled "NORMALIZED WINDOW LENGTH" and ranges from 0 to 1.0. The y-axis is labeled "amplitude" and ranges from 0 to 1. The "square window" is represented by a dashed curve that starts at (0,0), rises to a peak of 1.0 at 0.5, and falls back to 0 at 1.0. The "Welch window" is represented by a solid curve that starts at (0,0), rises to a peak of 1.0 at 0.5, and falls back to 0 at 1.0. The Welch window is slightly wider than the square window.
